Compute
Compute
Compute "AzurePMS" provisioning succeeded
Compute details
The "Kubernetes clusters" tab is now where you can access previous versions of "inference clusters" (also known as "AKS
with any previously created compute targets using those types. Learn more about Kubernetes clusters.
Compute instances
Compute clusters
Kubernetes clusters
Attached computes
Create a single or multi node compute cluster for your training, batch inferencing or reinforcement learning workloads. Learn more about compute clusters
Alternatively, you can now run a training job without having to create and manage compute by using serverless. Learn more here
